Experience

Machine Learning & Data Science Virtual Internship (EduSkills) Aug 2026 - Oct 2026
During my Machine Learning and Data Science internship, I learned Python libraries like NumPy and Pandas, data visualization using Matplotlib and Seaborn, and Machine Learning techniques using Scikit-learn. I also gained knowledge of NLP, SQL, Flask, model evaluation, and optimization.

MERN Full-Stack Web Development Virtual Internship (EduSkills) Apr 2026 - Jun 2026
Throughout the program, I worked on both frontend and backend technologies, gaining practical exposure to building scalable full-stack web applications.

Skills

Machine Learning & AI:	Machine Learning
Libraries & Frameworks:	Scikit-learn, NumPy, Pandas
Programming Languages:	Java, Python
Frontend:	HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS
Backend:	Node.js, Express.js
Database:	MongoDB, SQL
Tools & Platforms:	CI/CD, Git, Github

Projects

SnapClass - AI Attendance System

AI-assisted classroom attendance using facial recognition and optional voice recognition.
Technologies Used: Python, Streamlit, Supabase, scikit-learn, NumPy, Pandas, Segno

SkillTwin: GitHub Repository Analyzer

- SkillTwin is an AI-driven skill assessment platform built on the MERN stack.
- It ingests public GitHub repositories, extracts architecture and codebase metrics, and uses Groq-accelerated LLMs to generate a multi-dimensional developer skill profile.
Technologies Used: React, JavaScript, Node.js, Express, MongoDB, GROQ AI

AI Gesture Drawing App

- An interactive, real-time virtual drawing canvas controlled entirely by hand gestures.
- Draw, sketch, erase, render 2D geometric shapes, resize brushes with a pinch, and manage your artwork all using natural hand gestures.
Technologies Used: Python, OpenCV, MediaPipe and NumPy
